## Projects Involved

### 2016.10 - 2017.01    **Hexo Theme Ambition**

These hexo themes on the official site are not my tea, that's why I build another theme. Deployed ServiceWorker javascript to provide a better experience while users are offline. Learned stylus. You may visit my blog to see what does it look like.

### 2016.03 - 2016.07    **HiYouth Volunteer Travel Official Website**

Developed the whole site with jQuery/RequireJS technologies. In the 1st week, I'm in charged of slicing PSD into HTML. In the 2nd week, I'm involved in logic coding and debugging. At the end of the 3rd week, we debuged the API of the server. In the 4th week, I'm taking charged of making the website into responsible design. Later, added QQ link API on the login page.

## Skill List

### Front-End

master Javascript/HTML5/CSS3; Can using pure Javascript to develop applications; learnt jQuery/RequireJS/less/stylus/pug/gulp/bower; optimize performance; Android newbie developer; learnt some Progressive Web Application tech; No problem with git&linux daily use;

### Back-End

learnt Nodejs/JAVA; have used Express/Struts2/MySQL/MongoDB; known some HTTP/TCP/WebSocket protocol

## Rewards Events

Excellence prize of The First Continental Code Optimization University Competition(2016.07)

Second prize of Chongqing University students "Chinese soul" reading activities essay contest(2014.07)

## Summary

ENFJ-A, an insatiable bookworm. When I was in senior high school, I had translated a calligraphy handbook(Palmer Method 1935) in to Chinese, which was first shared in Cursive of Baidu Post Bar; I'm taking a craftsman's heart to design and develop web applications, dreamming to become a software engineer for spacecraft.

**Thanks for taking the time to read my resume and look forward to have the opportunity to work with you.**
